BURWELL'S X-TRA FLAT DUTCH.

1897

FROM

E. E. BURWELL,

South Grove Street (Annex).

NEW HAVEN, CONN.

A Word to the Wise

If you are looking for quality, something that will give satisfactory results with good care, then try my Seeds—they speak for themselves. All carefully grown from selected stocks.

It has been my constant aim and endeavor to have my seeds equalled by few, and surpassed by none. And I feel justified in saying, that all my seeds are the purest and best to be found. All seeds offered by me have been grown and selected with the utmost care, to have all varieties pure and true to name.

AND I WILL GUARANTEE,

That all seeds sold by me shall be as represented ; should they prove otherwise, I will fill the order gratis. But I cannot guarantee more than this, or guarantee the crop in any way, as there are so many causes over which I have no control, that, let seeds be ever so fresh, weather and other circumstances may cause a total failure.

For many years I have made a specialty of Market Gardeners' Seeds, grown from selected seed stocks. The importance of following this system for the production of choice vegetables is familiar to all gardeners ; if the vegetables from which seeds are grown are inferior or impure, so will be their product.

PERFECTION OF QUALITY WITH ME IS OF THE FIRST IMPORTANCE.

I make no charge for packing. Bags charged at cost price only.

Half a bushel will be supplied at bushel rates, half a peck at peck rates, one-half pound at pound rates. Orders for less than one-half peck or one-quarter pound will be charged at quart and ounce prices.

Prices subject to change without notice.

GENERAL LIST OF SELECT VEGETABLE SEEDS

FROM

E. E. BURWELL,

SOUTH GROVE ST. (ANNEX),

NEW HAVEN, CONN.

Algiers. The most reliable of the late varieties.....	.10	.65	2.25

CABBAGE.

The Cabbage crop is one of the first in importance with the Market Gardener, and its success or failure is due, in a large measure, to the seed used. The only consideration is "where can the best seeds be procured?" To meet the demand made on us for this class of seed, we are paying special attention to its production, and to secure the very best seed, we select fully developed heads, such as are absolutely perfect.

	Oz.	¼ Lb.	Lb.
Large Jersey Wakefield. The best, large, early variety. <i>Choice stock</i>	\$0.20	\$0.70	\$2.75
Burpee's All-Head. The best for second early and very late planting. <i>Choice stock</i>20	.65	2.50
Fottler's Imp'd Brunswick. For size and reliability. Stands heat well. <i>Choice stock</i>20	.65	2.50

Early Winningstadt. Very hard, pointed heads. 'Reliable. <i>Choice stock</i>	Oz. \$.20	¼ Lb. \$.60	Lb. \$2.25
Henderson's Succession. Grown as a second early. Flat heads.....	.20	.60	2.25
Warren's Stone Mason. Short stump. Flat heads. Very tender thin leaves.....	.15	.55	2.00
Burwell's X-tra Flat Dutch. The best for late planting. This is the best strain of Flat Dutch in cultivation, and has been grown in this vicinity, to the exclusion of all other strains, for many years. <i>Extra selected stock</i>25	.90	3.50
Premium Flat Dutch is good for late crop. My seed of this is best American grown, and equal to any offered by any other house under the same name. Do not confound it with my X-tra, which is a greatly improved strain.....	.10	.35	1.25
Mammoth Rock Red. Very hard, deep red. The best red variety. <i>Choice stock</i>20	.70	2.75
Globe Curled Savoy. Rawson's M. G. selected stock. A true Savoy.....	.25	.90	3.50
Perfection Drumhead Savoy. The largest of the Savoys. <i>Choice stock</i>15	.55	2.00
Packets of any of the above, 5c. each.			

CELERY.

White Plume. Easily blanched. True stock, very early.....	.20	.60	2.25
Golden Self-Blanching. True. Very popular for early use. <i>Select stock</i>25	.85	3.25
Perfection Heartwell. One of the most reliable. Very largely grown. <i>Fine stock</i>20	.55	2.00
Giant Pascal. A good keeping, large growing variety.....	.20	.60	2.00
Giant Golden Heart. This is the most popular winter variety. <i>Fine stock</i>20	.65	2.50
Winter Queen. New. Now offered for the first time. This has very heavy, thick stalks, with double the amount of heart of any known Celery. The best keeper.....	.35	1.10	4.00
Each of above, 10c. per packet.			

CUCUMBER.

Nichol's Medium Green. Early. Deep green. Very uniform in size.....	.05	.20	.50

Lawn Grass. Finest mixed. <i>Choice seed</i>	14 Qt. \$0.15 Bush. \$2.50
The "Henderson" Lawn Grass. <i>Best of all</i>	20 .25 5.00

FERTILIZERS.

I have had many years' experience in using Fertilizers of all kinds, and have spent much time and money in experimenting and studying the science of Plant Food. I will now give my customers some of the benefit of my experience. Buying Fertilizer chemicals and material direct from manufacturers and importers in large quantities, I am enabled to furnish the pure, unadulterated material direct to them at very low prices. I will also mix the Fertilizers for them from my own "Formulas," or as they may wish it, to suit all crops, and in any amount they may wish, charging for the chemicals and a little

for my time in mixing and bagging. My "Formulas" have given the best satisfaction to Market Gardeners and Farmers for several years, being composed of the *very best materials*. (No South Carolina rock, acid phosphate, leather, plaster or cotton seed meal, or make-weight of any kind.) In purchasing your Fertilizers in this way, you avoid the possibility of buying inert or insoluble matter frequently found in a ready mixed Fertilizer; matter that may analyze high, but being insoluble in the soil, to plants, is of very little agricultural value. The most economical way of obtaining Plant Food—you obtain much more Plant Food than is commonly found in most high grade mixed goods, and the price is no higher. I will describe what my "Formulas" for general crops are composed of: The nitrogen is in three forms—nitrate soda, pure bone held in form of sulphate, dried blood and meat. These are combined in a way to carry the plant from the start through the entire season's growth. The phosphoric acid is in two forms—soluble from pure bone charcoal dissolved in acid, and the more slowly available raw bone. The "potash" element is supplied in two forms—"sulphate" and "muriate" form. Both furnish Plant Food in an immediately available condition.

These chemicals will be furnished at the lowest market price for strictly high grade goods, and will be mixed to order in a manner to equal any factory goods. Try a ton on your crops this season, and satisfy yourself of the value of my experience in using Fertilizers.

"The proof of the pudding is in the eating."

LAWN MOWERS.

"THE CAMBRIDGE"

IS THE

Most Practical Self Sharpening Lawn Mower on The Market.

The stationary knife is of peculiar form, being concave, and by means of the adjustment the edges of the revolving knives and bottom knife are brought in contact in such a manner as to invariably keep the machine in excellent condition.

The adjustments are extremely simple, and nothing but first-class material is used in its construction. We fully guarantee every machine, and a single trial will demonstrate that anyone can operate this mower and do satisfactory work with less labor than any other mower on the market.

Extra parts always on hand.

PRICES REDUCED.

10-inch Cut, \$4.25.	14-inch Cut, \$5.25.
12-inch Cut, \$4.75.	16-inch Cut, \$5.75.
16-inch High Wheel, \$6.75.	18-inch High Wheel, \$7.25.

PURE PARIS GREEN.

In packages, $\frac{1}{4}$ lb., 8c.; $\frac{1}{2}$ lb., 12c.; 1 lb., 20c.; 5 lbs., 95c. Warranted perfectly pure.

CYCLONE EXTERMINATOR.

Improved. Price reduced to \$4.75.

With the improvement in this Paris Green Duster, two rows can be gone over at the same time, applying the Paris Green directly to the vines. It entirely does away with the necessity of using water, plaster, or any other bulky adulterant; simply from one to one and a half pounds of Paris Green to the acre, blown on the vines by this fine distributor, completes the whole business. In an hour an acre can be readily gone over, and as much of the arsenic in the Paris Green is dissolved by water the vines are never injured in the least.

No back aching lugging of water or plaster. They pay for themselves in a few hours in the saving of labor. Every one who grows potatoes should order one.

RUBBER HOSE.

The very best quality 3 and 5 Ply Hose in the market at lowest prices. Also Hose Nozzles, Hose Bands, and Menders, Hose Washers, Hose Couplings, Lawn Sprinklers, Lawn Mowers, Lawn Fertilizers, etc. Can save you money on these goods.

Trees, Fruit and Ornamental, Vines, Shrubs, Flowering Plants, Roses, Small Fruits, etc., at less than one half agents' prices.

Order from me and I will save you money. Give you the very best stock, true to name. Write for *Special Prices* on anything in my line you may want.
